JULY, 1933

TWENTY-EIGHTH YEAR

First Comes Planning Time Then Buying Time

Industry is gaining momentum.

By Fall, we predict, there will be much busier days in the industrial plants of the country, and they will need new and improved machinery.

But machine tools and other expensive shop equipment are not bought in a minute. Purchases usually follow weeks or months of planning and selection.

NOW are the months of planning and selection for Fall and Winter purchases. NOW is the logical and profitable time to advertise for your part of that trade.

Therefore, why wait? Why not tell your story NOW, while buyers are planning—investigating—selecting?

And for that purpose why not use the pages of the "Blue Book," whose sole purpose is to carry your story to the greatest number of people who would be interested in what you have to offer that would benefit them?

NOC-OUT

Automatic Roll Feeds For Punch Presses Speed Production

Secure automatic feeding with its many advantages for your punch presses by installing the NOC-OUT Automatic Reversible Feed. This small unit automatically feeds metal, paper, brake lining or any other stock from coils in lengths from 0 to 30 inches per stroke of press.

FASTER—ACCURATE—ECONOMICAL

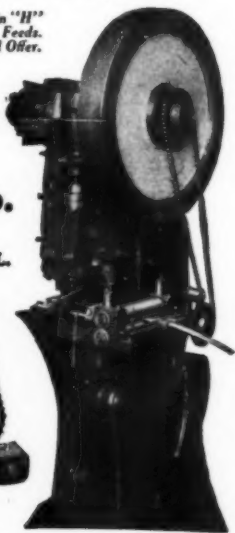

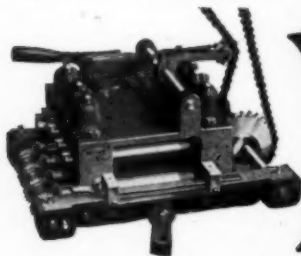

Labor is saved, production is increased and your men safeguarded with this feed. Automatic feeding means full speed production all day long—there are no "let downs" as it eliminates the human element whose energies are limited. Can be readily installed on any press.

We will gladly send you a copy of Bulletin "H" describing NOC-OUT Automatic Roll Feeds. Write for it and details of Our Free Trial Offer.

We design and build progressive and automatic dies for high speed production. Submit samples of your stamping for estimate.

KRW Hydraulic and Sensitive ARBOR PRESSES

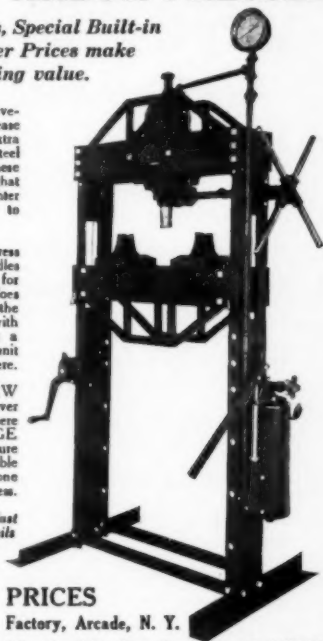

New Improvements, Special Built-in Features and Lower Prices make them an outstanding value.

THE last word in convenience, efficiency and ease of operation. Built extra strong and well braced with steel trusses electrically welded, these presses will withstand strains that would cause presses of lighter and inferior construction to buckle or collapse.

Hand wheel for sensitive press operations has sliding handles which pull out to the ends for increased leverage. Work does not have to be changed from the work table as is the case with other make presses having a separate sensitive press unit mounted on the side or elsewhere.

The importance of this KRW feature as a time and labor saver can be appreciated. Also there is **NO EXTRA CHARGE** for this important built-in feature on a KRW Press. Work table can be raised easily with one hand. A strictly one-man Press.

Write for special circular, just off the press, giving full details and specifications of all KRW Arbor Presses.

A New Internal

**Developed by BLESER MOTORS, Ltd.
16th and Madison Sts., Springfield, Ill.**

Are You Interested —

1. *In promoting an engine* which will outperform any internal combustion engine now known to industry, and which can be manufactured and sold cheaper than the conventional type of engine?
2. *In financing* such a project?
3. *In having one or more engines built for special purposes* (races, etc.) where hitherto unheard-of performance is wanted? You get light weight, small size, lack of vibration, extreme high power, smooth power, etc., at no greater cost than with other specially built engines.
4. *In obtaining manufacturing rights and patent license* for commercial production of these engines?
5. *In handling financial or sales end* of such production?
6. *In the development of oil engines and further improvements* in internal combustion engines?
7. *In the production of development of air motors or air compressors, pumps, etc.,* of extremely small size and weight, and with extremely large capacity?
8. *In putting us in touch with parties who would be interested* in any of the above projects?

IF SO, YOU ARE INVITED to write us and arrange for a running demonstration of the new Bleser Motor illustrated herewith.

Bleser Motors, Ltd

16th and Madison Sts.,

Springfield, Illinois

Combustion Engine

The picture herewith is from an actual photograph of the working model of the

No. 539 Bleser Motor

SPECIFICATIONS:

TYPE, 12 cyl. water cooled, 4 cycle.

HORSEPOWER, ...200 at 1200 r.p.m.
(Pony brake test)

DIAMETER, 19 inches.

FRONTAL AREA, ...2 sq. ft. (approx.)

WEIGHT, 386 lbs.

LENGTH, 41½ in.

DISPLACEMENT, 539 cu. in.

24 explosions in 2 revolutions.

Patented and Patents Pending

This is a cam engine utilizing six double ended pistons, with roller bearing piston rollers working in opposed cylinders, which are arranged in a circle around the main shaft, and are parallel to the main shaft. The cam is so constructed that each piston goes through four cycles (two complete crank motions) during each revolution, and each cylinder therefore fires once per revolution of the main shaft.

NOTE

This photo is of the engine mounted in the test stand just as it is run. The radiator mounted in the top of the stand is of course temporary, and is used to cool the water while it is being run inside the building. The instrument panel containing the throttle, tachometer, temperature gauges, etc., is mounted at the rear of the stand.

*Additional information will be
furnished on request*

Abolish Expensive Hand Finishing

with a

Simplex-M Abrasive Band Grinder

This Grinder accelerates production and cuts costs. Hand emerying or filing operations are antiquated in comparison. The use of this new modern machine assures straight grain finishes with sharp edges. *Details of this and other styles and sizes on request.*

WALLS SALES CORP., 96 Warren Street
NEW YORK

Outdoor Note

Ants, we read, can lift weights which are tremendous as compared with their own. Wasps and bees also can raise good-sized lumps.

Not Hard to Do

Jones—How do you spend your income?

Smith—About 30 per cent for shelter, 30 per cent for clothing, 40 per cent for food and 20 per cent for amusement.

Jones—But that adds up to 120 per cent.

Smith—That's right.

We Second the Motion

I wish our bank could get on its feet enough to stop sending back our checks marked 'No funds', said the bride to her husband. A bank that hasn't got enough money on hand to pay a \$4.27 check ought to be merged and put on a sound basis.

Wouldn't Feel Natural

Say, Bill, if you had five bucks in your pocket, what would you think?

I'd think I had on somebody else's pants.

Go Easy!

Pat: Hullo there! I want to know where I can get hold o' Mrs. O'Sullivan.

Operator: I don't know. She's awfully ticklish.

Twelve Things to Remember

The Value of Time.
The Success of Perseverance.
The Pleasure of Working.
The Dignity of Simplicity.
The Worth of Character.
The Power of Kindness.
The Influence of Example.
The Obligation of Duty.
The Wisdom of Economy.
The Virtue of Patience.
The Improvement of Talent.
The Joy of Originating.

Actual Riveting Results

Are Most Convincing

Send us samples of your most difficult work, in close corners or out-of-the-way places, let us rivet them on the—

GRANT NOISELESS SPINNING RIVETER

—and we will return them, with time and cost estimate.

The GRANT produces highly polished heads, without hammer or tool marks. Speed: a rivet a second. May be operated by unskilled labor—and it's *noiseless*.

Write for Catalog—and don't forget to send that sample!

To Industrial Plants

For the mutual benefit of yourselves and our advertisers, we want to be sure that the Blue Book goes, without cost, to those in your plant who can use it to good advantage.

Quite a number of you, particularly among automobile manufacturers, have sent us lists of the prominent men in your organizations who are most closely identified with the planning of your improvements and the selection or purchase of your machinery.

If you have not done this, you are earnestly requested to send us such a list of names, so that we may mail the Blue Book regularly every month to those of your own selection, without cost or obligation of any kind whatsoever. Simply tear out this page, write the names on the reverse side, and mail it to the publisher.

Our only object is to make the Blue Book the best buying and selling medium on earth between manufacturers of machine tools and shop equipment and plants such as yours.

(See next page)

"Champion" Emery Wheel Dresser

Outlasts a Dozen Cheaper Dressers

The "Champion" is made by experts, for long life and the best service. The only dresser that runs in an oil bearing.

This Publication

Over 27 years ago this publication began advertising the products of reliable manufacturers to the metal-working trade. It is mailed regularly each month to every worthwhile prospective buyer of machinery, equipment, supplies and services in the industry. In the 27 years it has been published, millions of dollars worth of merchandise has been purchased by its readers.

Those who receive this publication regularly read it and respond to its advertising messages. Thousands of plants use it as a buying guide. We believe we sell more products per dollar of advertising than you can obtain in any other way. It is precisely the one medium that can produce profitable results for its advertisers at a reasonable cost.

MANUFACTURING CO.
CHICAGO, ILLINOIS

CO-OPERATION

By Col. Benj. A. Franklin, Springfield, Mass.

Industrial Engineer—Business Counsel

Former President, Associated Industries of Massachusetts

Most of the progress of the world is made by CO-OPERATION.

Government, football, family life, business operation, club life, orchestras, and a long line of GROUP OPERATIONS show its tremendous value.

When co-operation doesn't exist in these groups they go to pieces.

Now every business executive knows this as a general fact.

But apparently few executives know it as a particular fact. For this depression has shown the inability of executives to apply it in their trades.

Competition must exist, of course, but long ago we have learned that friendly competition is more profitable than cut-throat competition.

Yet this depression has shown, in prices particularly, cut-throat competition.

There are trade associations, of course, some five hundred of them.

But does yours really get down to hard pan, with a knowledge of costs, the economic situation, profit-making facts, complete statistics, even of average group profit and loss, and REAL CO-OPERATION?

If it doesn't, you are missing a bet. YOU NEED IT.

If it does, all can do better. And it's badly needed NOW.

Let the **BLUE BOOK** be Your Messenger

*There are four cardinal points
to profitable advertising:*

1. The article advertised must have real merit.
2. The copy describing it should be clear and concise.
3. The advertising message should be delivered to the maximum number of responsible buyers.
4. The cost should be in fair proportion to the distribution of the medium used, quality of circulation considered.

The controlled circulation of *Hitchcock's Machine Tool Blue Book* will deliver your message to more responsible users and buyers of machine tools and allied equipment, including aircraft, automotive and other large manufacturing plants, railway mechanical officials, etc., in the United States, than any other publication on earth. It is also sent to the more important importers in all parts of the world.

If your product is right and your copy is right, then the use of the *Blue Book* as your advertising medium completes a combination that is unbeatable.

The rates are most reasonable—write for them

Cincinnati Machinery & Supply Co., 28 West Second St., CINCINNATI, OHIO

UPSETTING and FORGING MACHINES: Latest Type, 1" Ajax, with overhanging slides. Other Upsetting and Forging Machines; Ajax, Acme and National, $\frac{3}{4}$ " to 5".

BULLDOZERS: Williams White, Nos. 1 to 9.

HAMMERS: All Sizes in Bradley Cushioned Helve and Upright. Board and Steam Drop from 800 lb. to 5000 lb.

PUNCHES: Single and Double End, various capacities and throat depths, plain and architectural jaws.

QUADRUPLE COMBINATION ALL STEEL PUNCH, SHEAR, BAR, ANGLE, TEE CUTTER AND NOTCHER.

TESTING MACHINES: Riehle 100,000 lbs, 2-screw Tensile, M. D., Scleroscopes.

RYERSON HIGH SPEED FRICTION SAWS: No. 2 Hand Feed and No. 4 Hydraulic Feed with Rotary Attachment.

SHEARS: Bar, Guillotine, Alligator, Plate and Quickwork Rotary.

PRESS BRAKE, Loy & Nawrath 8'x $\frac{1}{4}$ ", M. D., Tie Rod Construction.

KARDONG CONCRETE BAR BENDER. M. D.

COULTER & MCKENZIE 3" Single Pass Eye Back Machine.

STRAIGHT SIDE TRIMMING PRESSES.

OPEN BACK INCLINABLE PRESSES: Plain and geared, from No. 0 Bench Type to No. 6.

DIE SINKERS: No. 2 and No. 3 Pratt & Whitney.

STAKE RIVETER: Kling Bros. No. 4—62", capacity $\frac{5}{8}$ " hot, $\frac{3}{8}$ " cold —Punch $\frac{5}{8}$ " thru $\frac{3}{4}$ ".

CAMPBELL NIBBLER: 6" Throat, capacity 3/16".

CHIP CRUSHER, No. 1 Williams.

CARBONIZING FURNACE: No. 85A American Gas.

PIPE THREADING MACHINES: Belt & M. D —4" to 12".

MACHINE TOOLS: 24" G. & E. High Duty Shaper, arr. for M. D.; 24"x12" and 28"x12" Q. C. G. Lathes; 24x24x6" Planer; Nos. 1 $\frac{1}{2}$ and 2 Cincinnati Milling Machines; Oliver Die Filing Machine; LaPointe Keyseater; Drill Presses; Hack saws; miscellaneous equipment.

MISCELLANEOUS: Pense Electric Blueprinting Machine No. 10A; Forging and Tapering Rolls; Tumbling Tumbling Barrels of various makes and sizes; Forging Furnaces; Air Compressors; Blowers; Hydraulic Presses; Riveting Machines; Wire Straighteners from 3/16" to $\frac{5}{8}$ "; complete Parkerizing Unit.

BOLT MACHINERY

COLD HEADERS: Waterbury and Manville, single and double stroke, open and solid die, $\frac{1}{8}$ " to $\frac{5}{8}$ ".

1" NATIONAL SEMI-HOT AUTOMATIC FEED HEADER.

HOT HEADERS: Stop and Continuous Motion, all sizes.

COLD PUNCH NUT MACHINES: Waterbury and Manville, $\frac{1}{4}$ " to $\frac{1}{2}$ ".

AUTOMATIC BOLT TRIMMERS: Waterbury and Manville, all sizes.

HOT PRESSED NUT MACHINES: Acme and National, $\frac{1}{2}$ " to 2".

NUT BURRING MACHINES: National, $\frac{3}{4}$ " to 2".

AUTOMATIC SCREW SLOTTER: Waterbury $\frac{1}{4}$ ".

THREADING MACHINES: Single and Double Spindle from $\frac{1}{2}$ " to 3".

COMBINED POINTERS & THREADERS: Landis, Economy, Cooke.

THREAD ROLLERS: Waterbury and Manville, $\frac{1}{4}$ " to 1".

GIMLET POINTERS.

TAPPERS: National Automatic Bent Tap, $\frac{1}{4}$ " to $\frac{1}{2}$ "; Acme and National 6 and 8-spindle, $\frac{1}{2}$ " to 2".

Chicago Machinery Dealers Organize

Heeding the call of President Roosevelt for the various trades to organize, a large number of Chicago Machinery Dealers have gotten together and formed the "Chicago Used Machinery Dealers' Association." This Association is not a price fixing organization, but its purpose is to correct whatever evils may be found in the trade, and to protect the customer from misrepresentation. Its aim is to foster a spirit of friendly co-operation between buyer and seller.

Mr. Thomas F. Donahue, of the Donahue Steel Products Company, has been elected President of the Association.

The Blue Book

Goes straight to the Heart of 96% of the
Best Plants in every State of the U. S. A.

The above statement is the result of careful mail inquiries directed to thousands of the larger tool-using concerns.

It is also mailed every month to the leading importers of American machinery and equipment in foreign countries.

Reduce Screw Machine Feed Finger Expense with

No Pins—No Screws

Morrison Style B Master Feed Fingers and Pads

For All Makes of Automatic Screw Machines

CONSIDER THESE POINTS:—

- 1—We guarantee a 30% to 80% saving when feed tubes on your automatics are equipped with these feed fingers.
- 2—Morrison Style "B" Master Feed Fingers are heat treated, without compromise, for tension. The Pads are heat treated, without compromise, for long wear.
- 3—Scratching of polished, ground, plated or brass stock is eliminated by the use of our Nickle Cast Iron Pads.
- 4—Style "B" Pads for each size of stock are interchangeable between different makes of automatics with the same capacity. The saving is apparent—one set of pads for various automatics.
- 5—For sizes of automatics from No. 00 Brown & Sharpe to machines of 1 5/8" capacity.

Also, Morrison Collets will reduce your Collet expense. By specializing for fifteen years in the manufacture of Collets and Feed Fingers for all makes of machines, we are enabled to supply you superior products at lower cost.

Collets, Feed Fingers, Master Collets, Master Feed Fingers and Pads for: Brown & Sharpe, Cleveland, Cone, Gridley, National Acme, New Britain, Davenport, etc., Automatics.

Collets for: Bardons & Oliver, Cincinnati, Foster, Garvin, Pratt & Whitney, Warner & Swasey, etc., Hand Screw Machines.
